

Arlington

18204 59th Dr NE

**Served by Community Transit
Route: 230**

The Arlington skate park has a well earned nickname: "Gnarlington." This is the most severe terrain you can tackle in Snohomish County, with bowls offering no easy way in or out, and depths from 6 feet to 12 feet, plus a 17 foot diameter full pipe with a bulleted end cradle. The monster bowl section in this park challenges even the most experienced pool shark, and bigger wheels are a given. Rounded out with a smaller but very fun street section, Arlington includes a 6 stair down rail, hubba ledge, small double set and mini EMB ledges. This park has a great mix of challenging terrain. Arlington is definitely a go. There aren't too many services around so be sure to load up on water and snacks.

Bothell

9815 NE 188th St

**Served by Community Transit
Routes: 120, 121**

Bothell is getting ready for an upgrade, and it still has the only true halfpipe around. The wide open two tennis court format gives you plenty of time on the roll to attack the quarter pipes or pyramid, but watch out for cracks. With quarter pipes with bigger transitions and some fun flat rails, Bothell is a great alternative on those busy nights when other parks are overcrowded (Woodinville).
