

# Mill Creek

13903 North Creek Dr

**Served by Community Transit**

**Routes: 105, 106**

This park offers a mix of bowls with an innovative street course. The bowl has deep and shallow ends with quick transitions and a mix of pool and pipe coping. Make sure the bowl is free of pine needles, though. Slippery. The street course offers up several different sections that all tie together. High hubba ledges. A small two up set with ledge looks like a mini Pier 9. There is a medium double set begging for the SSBSKF. The 8 stair down rail for the heavy hitters is not joking around. This park offers a lot of features in a small amount of space. Well done, Mill Creek!

# Monroe

Frylands Blvd

**Served by Community Transit**

**Routes: 270, 275**

The Monroe skate park is fun for younger, learning skateboarders. While the X-Games won't be coming to Monroe anytime soon, the park is user friendly and very visible from the adjacent playground. Monroe can be fun especially if you like ledges, flat rails and smaller drops. The small ledges, mini pyramid and modular ramps offer something different than in other communities. If you have young children learning to skateboard, this park should be your first stop. Advanced skaters have been known to clean house in games of skate while nailing down switch tricks.
